

2023-2024 Texas 4-H Water Ambassadors Program

Application Instructions

Applications open March 15 – May 1, 2023

Visit www.texas4hwaterambassadors.com to learn more about the program.

A. GENERAL INFORMATION

The Texas 4-H Water Ambassadors Program provides high school youth an opportunity to gain advanced knowledge and develop leadership skills related to the science, technology, engineering, and management of water in Texas. By connecting with water professionals, water ambassadors gain exposure and recognition as youth leaders, learn about scholarship and internship opportunities, and explore the diverse career paths in the water industry. The program is led by Texas 4-H and Texas A&M AgriLife Extension and supported by water industry sponsors through the Texas 4-H Youth Development Foundation.

Each year, up to (30) individuals are selected to join the Texas 4-H Water Ambassadors Program. Those selected participate in a summer 4-H2O Leadership Academy. Over the next (12) months, ambassadors commit to provide a minimum of (40) hours of service.

Tier I 4-H2O Youth Leadership Academy (June 11 – June 17, 2023)

The Leadership Academy is an educational tour across Texas exposing youth to a wide range of water resources, water uses, ecosystems, and water quality concerns. Ambassadors learn about applied research and technology, water law, policy, planning, and management strategies employed to conserve this valued resource. As they meet and interact with leaders in the Texas water industry, water ambassadors gain an appreciation for the complexity of managing surface and groundwater and develop a broad perspective of the value of water to local, regional and state economies.

Leadership, Mentorship, & Community Service

Water ambassadors commit to a minimum of (40) hours of service over a 12-month period following the Leadership Academy. Service hours are earned by delivering water education at local 4-H clubs, schools, fairs, and other community events. Credit is also be earned by assisting local water utilities, groundwater conservation districts, and County Extension Agents in water outreach activities. Additional service credit is awarded to water ambassadors who complete continuing education opportunities and required monthly assignments administered by the 4-H2O Program Coordinator.

Educational programs of the Texas A&M AgriLife Extension Service are open to all people without regard to race, color, sex, religion, national origin, age, disability, genetic information, or veteran status. The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas cooperating.

B. OBJECTIVES

- Experience the wide diversity of water resources, water uses, sensitive ecosystems, and water quality concerns throughout the state.
- Gain insight into water law, policy, and planning strategies to protect and preserve surface and groundwater resources.
- Learn strategies for improving municipal, agricultural, and industrial water conservation and efficiency.
- Understand the importance of water to local, regional, and state economies.
- Develop valuable leadership and communication skills while educating others.
- Learn about the many career opportunities in the water industry.

C. BENEFITS OF BEING A 4-H WATER AMBASSADOR

- Serve a statewide 4-H leadership position and be accorded the respect appropriate to this role.
- Form friendships with peers across the state who share your interest in water and natural resources.
- Become a subject matter expert among your peers. Educate others in your community and state on the importance of water to Texas.
- Explore career opportunities in the water industry and beyond.
- Gain deep insight into the governance and management of water resources.
- Learn about scholarships and internship opportunities available through water industry organizations.

D. SELECTION CRITERIA

- Demonstrate a genuine interest in pursuing an in-depth understanding of Texas water issues.
- Pledge to devote the time and effort necessary to deliver water education in your community.
- Be willing to teach youth and adults about water issues.
- Be willing to work individually and as part of a team.
- Be mature, responsible, and use good judgement and appropriate behavior while serving as a water ambassador and representing the Texas 4-H Water Ambassadors Program.
- Have dependable, regular access to the internet and email.
- Commit to participate in the summer 4-H2O Leadership Academy.

E. IMPORTANT DATES & DEADLINES

- Applications are accepted March 15 through May 1, 2023.
- Applicants are notified of their acceptance by May 10, 2023. Further instructions and tentative itinerary for the summer 4-H2O Leadership Academy are provided at that time.
- Applicants must be a member of Texas 4-H and pay the \$250 participation fee in 4-HOnline by June 1, 2023. Payment details are provided to selected students.
- Academy dates are June 11 – June 17, 2023. Student drop-off in San Marcos, pickup in Waco.

F. ELIGIBILITY

Applicant must be 14 years of age or older by September 1, 2023, and be entering the 9th, 10th, 11th or 12th grades for the 2023-2024 school year. Applicants do not have to be a current member of Texas 4-H but must agree to become a 4-H member (\$30 annual membership fee) if selected before participating in any activity of the Texas 4-H Water Ambassadors Program.

G. TERM OF SERVICE

Ambassadorship is a 12-month commitment, “officially” beginning July 1, 2023, and ending June 30, 2024. Ambassadors who meet the minimum (40) hours of service are invited to serve another term. Twenty hours service must be completed by January 1, 2024. All first-year students are referred to as “Tier I 4-H Water Ambassadors”.

H. HOW TO APPLY

There are two steps to apply: 1) Complete the online application; and 2) Email two letters of recommendation (must be emailed directly from person writing the letter).

Step 1: Complete Online Application

All questions on the application are listed below. There are four short essay questions. **It is highly recommended that applicants prepare responses in advance of completing the online application questions.**
